

Dash Parkour - movimento incessante e allenamento intensivo

L'obiettivo del parkour è quello di eseguire movimenti delicati e incessanti in maniera straordinaria. Questo sport sviluppa movimento, controllo del corpo e interazione con l'ambiente. Le attrezzature Dash Parkour sono state progettate insieme alla Parkour Academy. Offrono agli appassionati un luogo di formazione conforme ai requisiti di questo sport ed è consentito affinare i movimenti in tutta sicurezza.

Le aree per parkour alimentano la nostra immaginazione e offrono una vasta gamma di possibilità per eseguire diversi tipi di movimento e opzioni di percorso per tutte le età. Nella progettazione dell'area è possibile utilizzare progetti confezionati oppure rivolgersi al servizio MyDesign di Lappset, dove i nostri ingegneri collaborano strettamente con i professionisti di questo sport.

Le attrezzature Dash Parkour sono progettate secondo la norma SFS-EN 16899:2016.

Quando l'altezza di caduta è inferiore a 1600 mm, non è richiesta la superficie di attenuazione degli urti (IAS). L'altezza libera di caduta deve essere determinata dalla parte superiore dell'attrezzatura.
